A 45th Anniversary of the foundation of FALIA - a significant date that is not only for the organization itself but also for all organizations from different countries, which had an invaluable opportunity to receive training to improve its professionalism and explore the experience of Japan for further use in developing the insurance of the country.

Apparently, from the first days of independence, Uzbekistan and Japan identified a course of friendly relations and partnership in various fields.

In turn, it is difficult to estimate the contribution of FALIA to the development of national Insurance Institute of Uzbekistan. The knowledge and experience obtained by our representatives during the training programs and workshops, allowed to adjust strategy activity of O'zbekinvest Hayot which was a pioneer in the field of life insurance. This also contributed to the development of new products and internal training of young specialists.

On the 45-year Anniversary please accept sincere wishes to all the founders and employees of FALIA prosperity, success in work and new successful ideas.

We also express our confidence of the whole team of O'zbekinvest Hayot that further cooperation between FALIA and the Uzbek sides will contribute to the implementation of many successful projects.

Let me express my deep respect to all founders and staff of worldwide unique The Foundation for the Advancement of Life & Insurance Around the world on the occasion of 45th Anniversary.

Since 2007, at seminars organized by FALIA has trained more than 70 representatives from Uzbekistan, including heads of insurance companies and middle managers, and also employee of the Ministry of Finance of the Republic of Uzbekistan.

However, on 28 November 2011 the Foundation in collaboration with the Ministry of Finance of the Republic of Uzbekistan organized and unforgettable hosted a regional seminar in Tashkent.

Needless to say, with what great care, creativity and professionalism of the staff, and most importantly with the Japanese accuracy FALIA conducts its programs.

I must confess that I have opened a new country for myself – country indeed worth to visit and more than once!

---

It is true that main capital and treasure of Japan is people – in this respect Japan is a unique country, very close to Uzbekistan by the spirit.

I am pleased that the experience gained and new ideas acquired by participants at the seminars of the Foundation, successfully implemented in their companies and give an impulse to the development of insurance as the whole.

I hope that mutual cooperation between FALIA and Insurance community of Uzbekistan will be continued in the future, and I wish success to the FALIA team great success and peace to the people of Japan.

**Participated in :        2014**

I sincerely welcome you from Tashkent, Uzbekistan.

Exactly one year ago I was fortunate to be a member of your extended family FALIA. I thank God, it was a wonderful experience that will remain for many years in my heart.

First of all let me express my deep respect and reverence for all employees of FALIA. Your work is an invaluable contribution to the development of insurance culture worldwide. You help to understand and to bring each participant of the seminar by very accessible and lots of fun, united by a common idea and views on the development of insurance and their role in this field in the future.

Thanks to your work, I got a great store of knowledge not only in the field of insurance, but in everyday matters of life. It was my first visit to your country, after which much of my attitude and outlook changed absolutely.

I very much hope that I will come back and try to visit family FALIA and bring a piece of culture of the Uzbek insurance market for the benefit of our cooperation.

And considering that every year between our countries is developing close relationships (this example, the recent official visit of Prime Minister of Japan, Mr. Shinzo Abe 安倍 晋三 to Uzbekistan) maybe in the future we will try to create the Uzbek analogue of Fund FALIA in Uzbekistan for the benefit of the exchange of experiences between the countries of Central Asia region.

With great respect, from Ozoda san.

I am very pleased and honored to be one of those who attended FALIA seminars held in Japan.

I share the views of my colleagues concerning the informativeness and effectiveness of programs organized by FALIA, as well as professionalism and great attention to details paid by its staff members during arrangement of such seminars.

Furthermore, for my part, I should mention that any and all participants from Uzbekistan remember the period of attending seminars and short term staying in Japan with many heartfelt and warm words. I am proud to have personal experience of being in Japan, meeting its people and seeing their culture.

I am honored to express my appreciation and wish continued success in FALIA's remarkable activity, and pleased to support any initiative to be endeavored by FALIA Foundation.

**Participated in :** 2009

On the occasion of the FALIA's 45th Anniversary let me express my deep respect to all FALIA's founders and staff and wish every success and prosperity.

Being one of the most developed countries in the World Japan made great contribution in promoting developing countries generally and life industry particularly. The simple example for the above said is FALIA's training seminars for the developing countries' life insurance specialists which held during many years.

Acquired knowledge during participation in FALIA's training courses made possible for us to establish last year daughter life insurance company "TEMIRYO'L LIFE" which became third life insurance company in Uzbekistan.

I do hope that mutual cooperation between FALIA and TYS will be continued in the future and wish FALIA's team strong health, every success in their future activity.
