Product Development & Aging Society Course (May 13 – 17, 2019)

Dear Sir:

In accordance with our annual schedule of seminars for the year 2019, we are planning to hold “Product Development & Aging Society Course” to be held in Yokohama from May 13 through 17, 2019 with the theme of “Product Strategy of Life Insurance Company reflecting Aging Population”. The number of participants we would be able to accept in this seminar is limited to 25.

We now take pleasure in inviting any appropriate person representing your esteemed institution to come to Yokohama to participate in this seminar. It is necessary for your representative to satisfy the qualifications for admission.

General requirements for application, expense and other important items to be noted are stated in the “Guide to the Year 2019 – Product Development & Aging Society Course” and so please refer to them without fail in applying.

While every effort will be made to ensure that the course will take place as scheduled, we, FALIA, reserve the right to modify or cancel in whole or in part any of the events due to the reason beyond our control.

The procedure for application is as follows:

- 1) First, please send us “Application Form” with the necessary information by no later than March 7.
Kindly note that insufficient information of applicant and any application arriving after this deadline will not be accepted. Also, we cannot accept individual application without recommendation by responsible person at your institution.
- 2) Next, based upon the information above and if necessary after the process of screening, we will decide participants and proceed to the mailing of the formal invitation letter.
- 3) Once our invitation letter is sent out after the deadline, communication thereafter will be conducted directly between FALIA and the applicant.

We look forward to hearing from you soon.

Sincerely yours,

Toru Nagashima
Managing Director, FALIA
